### **Brijot Imaging Systems Completes Private Placement Offering of \$14 Million**

*Company Secures Financing to Accelerate Growth and Support Strategic Market Opportunities*

Orlando, Florida -- (Business Wire) -- Brijot Imaging Systems, Inc., an industry leader for passive millimeter wave object detection and people screening technology, announced today the completion of a private placement offering of its Series C Convertible Preferred Stock in the amount of \$14 million. Brijot intends to use the proceeds from the placement to finance the continuing growth of the company. The investment was led by the Company's majority shareholder, BIS Latin America Investments Co., a subsidiary of The Exxel Group.

"The Company has many exciting growth opportunities underway that require capital investment to accelerate product development and market expansion" said Mitchel J. Laskey, president and chief executive officer at Brijot. "It is extremely gratifying to have the continuing confidence of investors like The Exxel Group, with their strategic vision and necessary capital to support our team in the building of a world class business."

#### **About Brijot Imaging Systems, Inc.**

Brijot Imaging Systems, Inc., with corporate and training offices in Orlando, Florida, designs, manufactures and sells an advance millimeter-wave object detection and people screening system known as "BIS-WDS<sup>®</sup> GEN 2." Brijot's unsurpassed technology focuses on meeting security challenges in high threat environments. The company began full-scale manufacturing and distribution of units to customers across the globe in 2006.
