

## **Brijot Imaging Systems Receives Contract Award from DoD**

ORLANDO, FL – February 17, 2010 – Brijot Imaging Systems, Inc., an industry leader in passive millimeter wave security checkpoint screening systems, announces today a contract award with a value of \$3,651,000 from the Air Force Material Command, USAF located in Hanscom AFB, MA. Brijot will develop and deliver a prototype Long-Range Personnel Imager (LORPI). This contract award and project is sponsored by the Joint Improvised Explosive Device Defeat Organization (JIEDDO).

### **About Brijot**

Brijot provides checkpoint screening systems that help commercial and government organizations worldwide detect concealed objects on a person in order to identify illegal activity prevent inventory loss and protect lives and property. Brijot's imaging solutions, based on our patented passive millimeter wave technology, are safe and preserve people's privacy. For more information, visit [www.brijot.com](http://www.brijot.com).

### **About JIEDDO**

The Joint Improvised Explosive Device Organization (JIEDDO) is the Department of Defense's lead counter-IED organization, dedicated to winning the fight against IEDs using all available resources. Working hand-in-hand with military, government, academic, industry, and international partners, JIEDDO is rapidly finding, developing, and delivering emerging capabilities to counter the IED threat.
